

## INTENT TO AUDITION

Our goal at Kinesis Dance Company is that the audition process is a positive, growing experience for everyone involved. Auditions are *highly* competitive. Every dancer must audition each year. Dancers are given numerical scores on specific dance abilities by qualified independent judges. These abilities are: ability to learn, spatial awareness, mastery of technique, musicality, and stage presence.

Based on directors' placements, the most qualified dancers are admitted to the Kinesis Dance Companies. The structuring of the companies and the placement of dancers within the companies is *entirely* the decision of the company of directors. The decisions of the directors must be accepted in a positive manner regardless of admission, rejection or placement in companies. These professional dance attitudes are part of the pre-professional dance experience that the Kinesis Companies represent.

Please contact Kinesis Dance at 720-515-6268 with further questions.
